Stamford Hotels and Resorts help grow a greener future

Stamford Hotels and Resorts have announced that its 'Grow a Greener Future' program has successfully raised over \$10,000 for Earthwatch Australia. "Stamford Hotels and Resorts are 100% committed to 'Grow a Greener Future' and we are thrilled to have reached over \$10,000 in donations. As a hotel group, we have identified several ways to decrease our carbon footprint without affecting our high levels of service with Earthwatch," said Thomas Ong, chief operating officer at Stamford.
