

It's Their World.

Earthwatch
Teen Teams

Time is running out for teens to make a difference.

Time is running out for you to make a difference.

Through Earthwatch, teens ages 16 and 17 connect with leading scientists, learn new skills, and make use of the power they have to change the planet.

Teen Teams provide:

- Life-changing experiential education in field research
- Community based learning, service learning, summer break, and winter term experiences
- Organized and safe group activities for recreational time
- Ideal material for college application essays
- Earthwatch staff to supervise and enrich teens' learning experiences
- Exposure to global citizenship and world cultures
- A chance to take action on behalf of a threatened environment

One planet. So many ways for Teen Teams to help.

Amazon Riverboat Exploration

Trinidad's Leatherback Sea Turtles

Climate Change at the Arctic's Edge

Costa Rican Coffee From Community to Cup

Diamondback Terrapins of Barnegat Bay

Tracking Baja's Black Sea Turtles
